# NEC PARTNERS WITH GENERAC TO GIVE YOU THE PEACE OF MIND YOU DESERVE

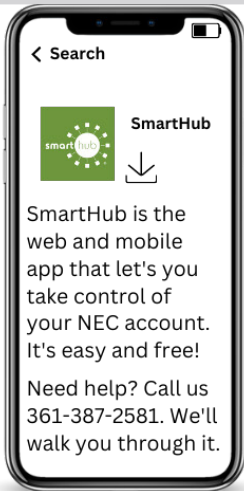

Part of our mission at NEC is to provide the most reliable electric service to our members. In an effort to achieve this mission, Nueces Electric Cooperative is proud to announce our partnership with Generac.

Generac is a manufacturer of whole-home backup generators and has partnered with many electric co-op's to offer special pricing to members. This service is available to NEC members on NEC powerlines.

A permanently installed Generac home backup generator protects your home automatically, giving you the peace of mind you deserve. It runs on natural gas or liquid propane fuel and sits outside your home, just like a central air conditioning unit. These generators not only provide you with backup power but are also an energy source for utility companies to rely on during peak demand times.
